

	Solutions	Range			What other information or data do we need?	Who else needs to be involved?	Action for next meeting	Person assigned to action
		Short	Mid	Long				
High Priority	Landlord Party Notification Policy: Sometimes landlords don't know when they have a party house - neighbors don't want retribution - can police notify landlords?							
	Student Party Amnesty Policy: Develop way for students who live in houses to feel safe calling for help if a party gets out of hand. Uninvited guests often cause problems.							
	Stricter Punishments: There is no fear of repercussions - could target recurring party houses with more than citations							
Mid Priority	More Alternative Programming: Instead of punishing, work with people. Have more alternative programming so they don't need to have parties							
	Creative Party Break-up: Hotspots move around. Police tracking party houses and focusing on prevention. If that fails, use unique methods to disperse (such as bullhorn)							
	No Entertainment District: No open container district in college neighborhood							
	Better/More Education: Educate students on responsible parties. Explore new ways to do this.							
Low Priority	Keep Track: University is tracking party houses and citations							
	Lobby to Change National Law: Lower drinking age to 18 - attitudes change when it becomes legal							
	Know Who is Here: People travel in - not UC students							
	Monitor Social Media: It's hard to control things getting out of hand when social media is involved							
Online	Better Enforcement: The party houses are known. Problem is lack of police citation or even response when called							

		Range			What other information or data do we need?	Who else needs to be involved?	Action for next meeting	Person assigned to action
Solutions		Short	Mid	Long				
High Priority	Give Away, Don't Trash: Encourage students to give items to Goodwill instead of just trashing them							
	Double Duty: Crews (students, city, etc.) picking up and educating at the same time							
	Cincy Clean Up: UC Students get volunteer hours to help clean up littering (This does happen - Cincy Clean Up). KCB provides clean up supplies							
	Distribute Easy-to-See Educational Info: Education is needed for litter, garbage, etc. (door hangers, etc.) Refrigerator magnets							
	Properly Set Expectations in the Beginning: Don't set the expectation that someone will pick up - make sure as soon as August ends there is education, enforcement							
Mid Priority	Citizens On Patrol: People with walkie-talkies walking streets and engaging with moving students							
	Give Away, Don't Trash: Craigslist-like website - advertising more							
	Clean-up Communication: Make sure community Council knows where the dumpsters are during clean up week							
	Pick Up Frequency: More frequent pickup of garbage cans (corner cans)							
	Demographic Based Public Awareness Campaigns: Public awareness campaign about litter - one demographic-based							

		Range						
		Short	Mid	Long	What other information or data do we need?	Who else needs to be involved?	Action for next meeting	Person assigned to action
Low Priority	Roaming Pick Up: Trucks going up and down streets - encourage people to just set out							
	Focus on New Move-Ins: Use TWC/ Cinti Bell method or model: get to students who are moving in. If we focus on just freshmen they forget by the time they move off campus							
	Expand Move In-Move Out Efforts: move in - move out: expand for whole month of August							
	Give Away, Don't Trash: "Sustainability Corral" in all neighborhoods?							
	Give Away, Don't Trash: Partner with Goodwill/Salvation Army to coordinate pickups							
	Dilemma - there's good stuff and junk - develop way for junk to be hauled away so it's not added to the rest							
	Expand Move In-Move Out Efforts: Make concerted efforts after turnover							
	Illegal Dumping: Could be outsiders dumping							
Online Solution	Education: Educate and assist students. This is not a Police state. Make it easy and convenient to do the right thing. Making trash removal when moving impossible as everyone is moving in and out in a short time then fining the student or Landlord does not solve the problem rather it exacerbates it.							
	Double-Edged Sword: Door hangers and tickets become litter.							
	Enforcement: Prompt citing for litter by city is helping. Please continue.							

		Range						
		Short	Mid	Long		Who else needs to be involved?	Action for next meeting	Person assigned to action
Mid Priority	Education: Educate the public and the near - campus community about crime going down (Need data)							
	UC in One Police District: Police info seems to be focused on one of districts only - one reason to create one police district for UC							
	Enforcement: Make sure police are citing students							
Low Priority	Use Technology: Personalize DPS website for UC or have separate website for students (UC will coordinate this)							
	Notification is Required: Federal regulations require student notification of violent crime							
	Living Together: It's not all about protecting students from neighborhoods - sometimes other way							
	Education: Police telling communities that crime is going up (Need data)							
	Distribute Easy-to-See Educational Info: Door hangers for education - also giving "tickets" for cars not properly secured							
Online Solution	Enforcement: Police should write tickets for loud music. Police should write tickets for loud parties. Can let everyone know at beginning of year, but should not give warnings---just write the ticket. Landlords can make tenants pay for tickets, but should also be fined if problems are recurrent. Consistent ticketing would end many problems fairly quickly.							

	Solutions	Range			What other information or data do we need?	Who else needs to be involved?	Action for next meeting	Person assigned to action
		Short	Mid	Long				
High Priority	Student Ambassadors: Student ambassadors to help educate "Community Action Team" at UC							
	Get Creative with Spreading the Message: Use welcome weekend to "force" students to learn, also in classrooms, hand out swag on campus (koozies, magnet, etc.)							
	Keep Track of Non-Local Landlords: Out of town landlords required to give forwarding info, hire property managers							
	Culture Shift: Need a culture shift							
Mid Priority	Technology: Use the Live Safe App - how to promote that more and use for different things							
	Rental Registration Enforcement: Enforce rental registration on Auditor's website							
	Better Educate Absentee Landlords: More sophisticated land lords do a good job. Problem is absentee - need to educate them							
	Have a Multi-Pronged Strategy: Need to solve these problems from multiple angles - not one size fits all							
	Rental Registration Enforcement: Fast track reporting program to require rental registration							
	Student Responsibility for their Own Issues: Landlords - build into rental agreements that lessee responsible for any tickets							
	Less Tolerance for Wild Parties: University of Maryland (?) stated that they would no longer assume that wild parties/underage drinking is the norm. Continue to move							
	Better Education: Need to continue to teach awareness							

	Solutions	Range			What other information or data do we need?	Who else needs to be involved?	Action for next meeting	Person assigned to action
		Short	Mid	Long				
Low Priority	Better Use Social Media: Concerted messaging on social media at beginning of year							
	Teach Neighborhoods Skills in Class for Credit: "Living in the Community" Use Learning Communities for this.							
	Shame Them							
Online Solution	Work Together to Better Educate Landlords: Neighborhood Council-UC joint notification letters to property owners who rent to students containing information about litter, noise, safety laws & student code of conduct.							
	More University Involvement: The University needs to take some responsibility for bad behavior of the "clients" (students) they have lured to our community--perhaps by requiring unmarried freshmen/undergraduates to live on campus or under adult supervision or making students accountable (loss of scholarship or suspension from classes or degree program) for property damage/vandalism, underage drinking, sexual misconduct, etc.							
	Upperclassmen Only: The problems are in the neighborhoods surrounding UC these kids are allowed to go wild. NO FRESHMAN should be allowed to live off campus. Teach them whatever their parents did not teach them in your year with them in the dorm.							
	Landlord Party Notification: I have had good luck calling landlords about problems with trash and parties in the 2300 block of Flora. They are usually responsive because they don't want their properties trashed. It would be very helpful if the police call when there is a problem--even more helpful if they call at the time of the problem (for example, 2AM.) There should be clear guidelines, with consequences, consistently enforced.
